## Little Scratches

I hereby retract all slanderous comments I made against the democratic government of Al Amarja and Her Exaltedness Monique D'Aubainne, Historic Liberator and Current Shepherdess of Al Amarja. Under the dominion of fascist mind control, I committed heinous crimes against my fellow Al Amarjans and against your democratically elected government. I deeply regret the pain and suffering that I cau-

sed the innocent, and I beg my compatriots to accept me back into society, reformed and ready to undo the evil I have created. – Marianne Hillmer
