Little Scratches

I hereby retract all slanderous comments I made against the democratic government of Al Amarja and Her Exaltedness Monique D'Aubainne, Historic Liberator and Current Shepherdess of Al Amarja. Under the dominion of fascist mind control, I committed heinous crimes against my fellow Al Amarjans and against your democratically elected go-

vernment. I deeply regret the pain and suffering that I caused the innocent, and I beg my compatriots to accept me back into society, reformed and ready to undo the evil I have created. – Marianne Hillmer

A friendly warning

A large supply of tainted pot has been shipped to Al Amarja. If you must buy, buy only from those you trust.
