Little Scratches

I hereby retract all slanderous comments I made against the democratic government of Al Amarja and Her Exaltedness Monique D'Aubainne, Historic Liberator and Current Shepherdess of Al Amarja. Under the dominion of fascist mind control, I committed heinous crimes against my fellow Al Amarjans and against your democratically elected government. I deeply regret the pain and suffering that I caused the innocent, and I beg my compatriots to accept me back into society, reformed and ready to undo the evil I have created. – Marianne Hillmer

A friendly warning

A large supply of tainted pot has been shipped to Al Amarja. If you must buy, buy only from those you trust.

You cannot scare me. JJ.

How can a democratic and freedom loving state as ours have such oppressive and outright tyrannical, if not even fascistic, drug laws? It is such a disgrace to all of womankind!

The Fascists rule to world! Monique D'Aubainne is only a fascist puppet! I never said that! Don't print that!

GM'S NOTE: *Someone who called in a little scratch and then realised his error. Printed anyway since AAT couldn't know if this was all a code or he really wanted it to be withdrawn.*

Sebastian! Please come back! I promise to hit harder this time! Your lovecat.

You have been warned. –
